THE SONS OF MALTA -- Valetla Lodge, L. U. S. M. of this city, appears in public to-night for the first time in torch-light procession. We have been told by those who have seen similar displays in other cities, that it is solemn and aweinspiring beyond description. Curiosity has been for some weeks on the tip-toe of expectation for this event, and doubtless the streets through which the procession will pass will be alive with spectators till a late hour. From what we have been able to ascertain of the nature of this order, consistently with the essential secrecy pertaining o all such societies, we are disposed to think well of it. A secret society for benevolent social ourposes is very different from one for political

There are traits of beauty about its doctriues

and requirements, which challenge the admiraion of all to wbom they are made palpable. No man, however worthy otherwise, can obtain adnission and become an initiated Son of Malta, as we understand the matter, who will not solemnly declare that he will "feed the hungry and clotbe the naked." No man, indeed, can be a good Son of Malta who is not understood to be a good man, and who has not a heart overflowing with the milk of buman kindness. The poor of our city are lond in the praise of some unknown benefactors, who, in the still hour of midnight are in the habit of leaving at their doors barrels of flour, or other necessary articles of family consumption. A black Maltese cross marked upon these unostentations donations points clearly to the charitable givers. The statistics of the organization throughout the Union, show that hundreds of thousands of dollars have been spent in relieving the wants of destitute bretbren, in administering to the necessities of the sick, and in making provision for the widow and orphan. In the care the order takes of its own members it presents a lovelier picture than that exhibited by any other

secret society. It is, it seems to us of the uninitiated, a band of noble men, banded for noble purposes. The very secresy in which it is wrapped, and which is often alleged against it as an objection, is what enables it to enact so many good deeds. Without secresy the order would be bereft of the power to perform one tithe of what it does accomplish. Throw open the lodges-put the masses of the people in possession of the signs and passwords of the order-and that mission of mercy which now, com pacted and organized, it can so admirably fulfill, would, as formerly, become the business of every body, and by everybody be neglected. If, then, the power to recognize a Son of Malta and to communicate with him by a language known only to the members, enables them to do service in the mitigation of human suffering, who can reasonably object to their still holding it as a secret, and

using it for such purposea? The alike between owners and operatives, and stimulate the skill and exertions of each for the promotion of the common interests of all. No proposition is more easily demonstrable than that the interests of the employer and employees are one and identical, and that operatives, as they frequently have the power to do, cannot sacrifice the interests of the masters of the establishment, and not at the same time seriously jeopardise their own. In almost all branches of manufacturing the raw material constitutes but a part, and some times but a small part of the value of the manufactured article when ready for market-the residue being made up principally by the labor bestowed on it in converting from its crude to its inished state, and thus the operative, in the shape of wages for his skill and labor, shares, and that argely, in the profits of the business, and with this advantage, that while he receives his profits weekly in cash, in the form of weekly wages, the master workman runs all the risks of market and the hazard incident to time sales, loss of in-

We think if Louisville capitalists, and retired oneiness men, instead of sitting around and watching an opportunity to shave some husiness nan's note at twelve or eighteen per cent., would ook through such establishments as those of the gentlemen whose names head this article, and the many other concerns in the city equally interesting, and understand properly and appreciate the advantages resulting from them, as well to the community at large, as to the owners, there would soon be abroad among us a greater disposition to encourage such enterprises. Messrs. Wright and Bridgford have on Seventh

Many of their employees are men of families, and their calculation is that the money paid out by them for work done on their premises, feeds, clothes and supports, of men, women and children, five hundred souls .-This is the way in which a single firm contributes to build up the city. They create a market for labor, and in supplying it, they attract here, workmen with their families, who rent houses, hecome enstomers of grocers and provision dealers, buy their clothing and the couveuiences and luxu. ries which their means will afford, and thus diffuse the benefits of their industry through various branches of business, to the mutual benefit of all, They consume annually about 50,000 hushels of coal, 1,200 tons pig iron, 45,000 pounds of abeet cop- I'. These materials are worked up principally iuto office, parlor and cooking stoves, runges, grates, &c , and all the varieties of tiu and copper work. Having been successfully engaged for many years in their business, the reputation

for the excellent quality of their goods, is so well esiablished that they have no difficulty in finding ready sale for every thing they can turn out, and generally have large orders ahead for goods in their line .-Their largest market is in the South, though they have customers in most of the States of the Union, and even in foreign countries, as some of their goods are sent every year to Africa, and they have a valuable customer in Scotland. We were lown letters from a house in Glasgow, (Scotland,) ordering various articles, sloves, ranges, &c., for that market, and recently Messre. Wright & Bridgford-they need no newspaper puffs-but to draw the attention of our readers to the importance of our own manuion could be directed that way, we should soon see increased interest taken in encouraging everything of that kind in Louisville. As public journalists, we think we should be remiss in our duty to our patrons if we were to neglect what we re gard as one of the implied, if not expressed, obligations incident to our position; and as we are ndebted to the mechanics, manufacturers, and business men of this city, for a liberal and generous support, we are anxious to make our columns the medium of conveying to them every species of

He has never before called upon our citizens for like favors, and he has the right now to do so, with the full consciousness that his friends, and the public generally, will come forward and give him one of those old-fashioned thumpers which make the heart of an actor glad. Mr. Dickson has contributed in a high degree to the pleasure of the theater going public during the past season. He has studied their tastes, and has accommodated his style of act ing lo their wishes. The midnight torch-light procession of the Sons of Malta will take place to-night, should the weather permit; otherwise the order will take ad vantage of the first fair evening. The following, we have understood, is their line of march:

The procession will form at the corner of Jefferson and Fifth streets, proceed thence west along Jefferson to Seventh; south along Seventh to Broadway; east along Broadway to Sixth; along Walnut to Seventh; north along Seventh to Main; east along Main to First, and counter-Third to Jefferson, and east along Jefferson Fifth.

on the following letter addressed to him by Powbatan Robinson, Esq. Every agriculturalist is interested in the facts so graphically stated by the writer: - Jackson Miss.

the writer:—Jackson Miss.

Dear Sir: It gives me much pleasure to acknowledge the receipt of your letter of the 29th ult., which I received this morning, and I cheerfully comply with your request to give you the result of the plow triat which took place yesterday in my field, and terminated so triumphantly In favor of the "Brinley" plow as to excite even my astonishment, aithough for some time previous I had been profoundly convinced of the fact that Brinley made the best plow in America. But I will give you a history of the affair from the beginning. A few weeks since I had occasion to purchase a one horse plow and determined to try the Brinley. It is needless to tell you, how entirely I was satisfied with its performance, indeed I became enthusiastic in my admiration. On going over to the depot I observed the "Hall and Spear" and perhaps other plows of Northern manufacture, exposed for sale in such quantities that they literally covered the face of the earth, while not a Brinley was in the field. This was provoking, and I expressed my dissatisfaction very freely. Why is it that our planters and farmers will pertinaciously lisist on purchasing plows of Northern manufacture, when they can get at home an implement—cheaper and infinitely better. My earnest advocacy of the Brinley cansed one of my neighbors to banter me for a trial of it against the "Calhoun"—a plow of Kentacky manufacture—in order to convince me that it was at least equal to the Brinley, if not superior. I accepted the challenge, merely with the view of running the plows side by side, and testing or rather comparing their relative merits by inspection. I mentioned my design to your brother, who at once determined that the question should be subjected to a more rigid test, and the merits of your plow more clearly exhibited. Accordingly, on the appointed day, he sentdown the famons Brinley himself, with several plows and a dynanometre. Among the neighbors histily assembled to be Mr. Fatheree, Mr. Barnes, Mr. Moore and Mr. Bridges, well known as the CRYSTAL SPRINGS, April 1, 1359. wilness the performance, there fortunately happened to be Mr. Fatheree, Mr. Barnes, Mr. Moore and Mr. Bridges, well known as the best practical planters and farmers in this vicinity. They were selected as a committee to judge of the work, together with Mr. Gilmore, a fratrate mechanic and blacksmith, and my partner, Mr. J. W. Feit, a gentleman well stilled in agricusture, and thoroughly appreciating the value of a good implement. I have copied the notes taken by the committee, and placed them for convenience in tabular form, but before giving the results, I must in candor state what I consider to be the true value of the experiment. In the first place the rapid oscillation of the hand of the dynamometre made it difficult to take an accurate estimate of the average draught. So far, however, the trial was equally fair for all the plows. But in the second place we had the best Brinley plow [by the by, they are all best) while the other plows were selected hap hazard. Making due allowances however, for all inaccuracies, &c., the trial proved conclusively that the Calhoun was a much better plow than the Hall and Spear, and the Brinley incomparably superior to either. This I believe was the opinion of every one present. In giving my own opinion on this subject, I would not have you suppose that I ay claim to any authority as a farmer, for in this branch, I regret that I must confess to the most deplorable ignorance. But as a man of common sease, and I may add as an engineer, in the practice of which profession I have been called upon to measure a great quantity and great variety of work, with the greatest accuracy possible, I do claim to be able with a foot rule, to measure a plow furrow as well as any one, and also to determine whether the material broken up, was throw out of the furrow, turned over, &c., &c., or otherwise. But here are the results taken from the notes of the committee:

Section eq. inch Width do. in of Depth farrow of of

Brinley No. 2, A. . 6½ 9 53½ 836 Perfect. Brinley No. 2, B. . . 9 10 99 350 24 best. Calboun No. 2. . . 6 9 54 443 Net good. Hall & Spear No. 2. . 7 7½ 52½ 623 Infamous. Calboun No. 2... 7 74 524 623 Infamous.

In the above table the column headed quality of work are greases nearly my own opinion, though I have no doubt it will be confirmed by the committee.

There is one result which does not appear in the table of the time will be confirmed by the committee.

There is one result which does not appear in the table of the time will be confirmed by the committee.

The dinner, or festival, or banquet, has been so particularly fine that after arising from it, I feel somewhat incapacitated to do it full justice. But the stable that the draught of the plow marked "A" is rated rather tigh, but it was the first one tested, and they didn't quite have the "hang" on the instrument, as some or present remarked. I think \$2 stone or 308 pounds would give more nearly the relative value of its draught on that of plow B. Some force must also be allowed as expended in the perfection of the work done an inferior plow to B, and the secone or some gentlemen present, we tried the one-horse Brinley, without applying the instrument. There was a noble procession through the streets to the Methodist church, where the oration of the day was delivered by the Ray. Joseph Rand. Courier tells the following heart-rending story: Robert Janes, who lives on the Graham road, near he top of the hill, started from home, accom-anied by a little dog, to visit an aunt, who lives a short distance from Mr. Janes'. Yesterday it was ascertained that the child did not get to her aunt's during the day. Thursday night, all day Friday, and Friday night, the little child is sup-posed to have been wandering about in the woods, during all which time the rain poured down al-most without intermission. Persons did come who were gazetted in New York as having gone out to the Island in order to superintend the general insurrection, which was fixed to break out, of all days in the year, on the first of April, and to be in at the formation of a new government. But Cuba, instead of being in the turmoil of a revolution, was uncommonly dull; and travelers report Havana to be positively stupid—"not a monse stirring." The Islanders do not know what to make of the story, and we do not hear that the Captain General, who is ordinarily so susceptible to rumors of invasion, was disturbed enough to be set into any activity of precaution. The agitation appears any activity of precaution. The agitation appears to have been all confined to the the New York proprietors of the story, and it is a doubt whether they meant it as a huge canard, or had an interest in directing attention to Cuba, in order to draw attention from some other project, in regard to which it was desirable to dodge the laws. We shall look out to see where the hit was meant to be, which this feint covers, if it was ever meant to be more than a hoax.—N. O. Picayuns, 22d

He worked much and diligently, but the most he ever made in one day at mining was twenty-five cents. He says further, that many he saw actually crying for something to eat. He met an immense emigration going thither, on whom his discouraging story had no other effect than to nrge the crowd forward. Large quantities of provisions were on the way; but Mr. Ichem says the people in the mines have nothing to buy with when they get there, and thinks they will be so maddened with hunger, as to take possession of them by force.

ARREST OF COUNTERPRITERS, AND LARGE HAVE OF COUNTERPEIT MONEY.—The Chief of Police, having good reason to suspect the operations of Fred. This was done at a late hour Friday night, and a party arrested, comprising Biebnsch, Fawcett, alias Foster, alias Legs, Mrs. ditto, Bill Richy, Quigley, and another may whose name is not reported. LOUISVILLE: WEBNESDAY, ..... .. APRIL 27, 1859. Reading Matter on Every Page.

The Democrat on Stephens of Georgia. On Saturday last the editor of the Louisville Democrat, fo'lowing the example of the Hon. Stephen A. Donglas, of Ill., misrepresented the Hon A. H. Stephens, of Georgia, so far as to make that distinguished Sonthern and National Democrat appear to endorse certain Black Republican her esies now attempted to be forced upon the South by her seeming friends. We replied to the Democrat, and showed by quotations from three different speeches made by Mr. Stephens at different times. that he was decidedly misrepresented by the ed itor of the Democrat. But in the face of this exposure, the Democrat persistently clings to its original misrepresentation of the position of Mr. Stephens, and in its issue of yesterday used the following language on the subject :

The Louisville Courier makes a desperate effort to relieve Stephens, of Georgia, of the honor of holding the Democratic position in 1856. The editor has either not read the speech he quotes from or entirely misapprehends it. If the reader will turn to the Appendix to the Congressional Clock Laurer 17, 1856, he will see the speech in Globe, January 17, 1856, he will see the speech in question. What we published from it is full and explicit. It does not admit of misconstruction or ar two constructions.

Now, to show that the editor of the Democra has misrepresented Mr. Stephens, we shall re-produce the extract he takes from the speech of Janua-19 1715, 1856, made in the House of Representatives, and follow it by an explanation of the speaker's meaning corroborated by the context, and by other extracts from the same speech. The following is the Democrat's quotation from the speech in

"Now, sir, as I have stated, I voted for this bill. leaving the whole matter to the people to settle for themselves, subject to no restriction or limits tionbut the Constitution. With this distinct unde s'anding of its import and meaning, and with a determination that the existence of this power benog disputed and doubted, it would be better and much more consistent with our old time Republican principles, to let the people settle it, than for Caugress in de it. And although my own opinion is that the people, under the limitations of the Constitution, have not the rightful power to exclude slavery so long as they remain in a Territo-rial condition, yet I am willing that they may de fer ainc it for themselv s, and when they please. I shall hever negative any law they may pass, if it is the result of a fair Legislative expression of the popular will never! I am willing that the Terwhen and how they may think proper." Mr. Sephone was speaking in favor of the Kaz-

sas-Nebraska zet, and contending against the right or power of Congress to engraft upon that ect the Wilmot proviso, which would exclude slavery from these Territories before they be came sovereign States, and was contending for the opposite doctrine that the people of these Territories should be permitted to make the Territory free, or slave, as they pleased, when it became State by admission into the Federal Union .-When, therefore, he said it would be better for the people than for Congress to settle the slavery ime of admitting the Territory into the Union as a State, according to the will of the people thereof, nstead of the restriction of Congress at the or ganization of the Territory. He expressly denies the rightful power of the Territorial Legislature or the people to exclude slavery while in a Ter. ritorial state, but says they may do it when they please, thereby meaning that they may throw off he Territorial state when they please, or when they can, and become a free State, if they want to get rid of slavery. And when he says he will never "negative any law they may pass, if it is the result of a fair legislative expression of the popuiar will," he clearly means such legislation as is to determine the free or slave character of the State when its Constitution is made under the organiact for admission into the Union as a sovereign State. That such is the meaning of the words used by Mr. Stephens in the extract upon which we have commented, is made clear by the context. and by other passages in the speech. A few short quotations will show that we are right in this

Immediately preceding the extract garbled by the Democrat, on which we have been commenting, Mr. Stephens lays the foundation for that extract in answer to a direct question put by Mr. Washburn, as to the power of the people of a Territory to exclude slavery by Territorial legisation while in a Territorial state. He lays the foundation in the following words, which show clearly that we have rightly interpreted the ex-

"The people have, in my opinion, the power to exclude it only in a State capacity, or when they torm their State Constitution. Then they get it where all the States get it. The people, in a Territorial condition, are but new States in embryo; this latent power of full sovereignty, when they assume State form, then develops Itself; as wings to rise and fly, though latent in the chrysalis, do nevertheless develop themselves in full hearty. nevertheless develop themselves in full beanty, vigor, and perfection at the proper time."

And following the extract in question, Mr. Ste pheas still further shows that he was speaking of the legislation of the people of a Territory when they are about to come into the Union as mempers of a sovereign State, by the following words: "I am for maintaining with ateadfastness the Territorial bills of 1850—the principle of leaving the people of the Territories, without Congressional restriction, to settle this question for themselves, and to come into the Union, when admitted as States, either with or without slavery, as they may determine."

That auch is the true position of Mr. Stephens, and that he does not agree with Davids.

I held that Congress had power to govern or to provide governments, and to pass such laws as were necessary to give security to slave property, which some, holding the doctrine of "non-intervention," as then used and understood, denied. was amazed at some gentlemen who held that, by virtue of the Constitution alone, we could hold slaves in the Territories, and yet denied the power to protect them. I hold the same senti-ments now. I held that it is the duty of Congress to protect alave property as well as other property in the common territory of the United States, just as it might protect any other kind of property. That is what I held to be the power and duty of Congress. I did not hold that it had the unsulfied power to prohibit

qualified power to prohibit. Again, the following questions, put by Mesers. Zollicoffer and Todd, and answered by Mr. Stephens, show that Mr. Stephens, while he recognises the power and duty of Congress to FAMILY SEWING MACHINES protect slavery in the Territories, denles the power f that body to abolish it or to impart the abolition power to a Territorial Legislature or the people of a Territory while in a Territorial state: Mr. Zollicoffer.—I would be pleased to know whether the gentleman from Georgia interprets the Kansas-Nebraska bill to give to the people, to the legislative body, of the Territories of Kansas and Nebraska the power to abolish alavery during the existence of the Territorial government?

of the Territory, grants to them all the power that Congress had over it, and no more.

Mr. Zollicoffer.—Do you believe that Congress had no power to abolish slavery in that Territory during its Territorial existence! ephens .- I think it would be unjust an

a great wrong for Congress to excercise any such Mr. Zollicoffer. - Do you think it would be unconstitutional?

Mr. Stephens.—I think there is no power in the Constitution to do it, and it would be wrong from any resulting power, denying as it would an equal and just enjoyment of the public domain by all the people—and unjust, and tantamount to usurpation to do it. onstitutional?

Mr. Todd—I understand the gentleman to say that the people have not that right, and that Congress had not the power to clothe them with that ropies \$20. No paper ever sent unless paid for in advance. See first column on first page for particulars as to right. Now, I want to know where this great representative principle, of which the gentleman speaks, resides, and how is it to be exercised, if meither Congress nor the people possess it?

Mr. Stepheas—It is to be exercised by the people when they form their State Constitution. That is my view of how and when the power is to be properly exercised; that is what I conceive the old republican idea was.

Such is the position of Mr. Stephens, always

held by him and ever to be maintained. And the South should stand by him in that position at all | Co., No. 21 Chartres street, New Orleans. hazards. It is the only position the South can occupy and remain in the Union. It is the position held by Southern statesmen from the advent of the anti-slavery movement in the country, and whenever they have varied from it the digression has been a compromise for the preservation of Union. Compromises, too, by which the South has lost three times as much as she has gained. It is time, therefore, for Southern statesmen to stand by principle, and to let policy slide. Whenever we have made a compromise with the North, it has not been abided by that section of the country. We agreed with them to divide territory by the Missouri Compromisc in 1820, but when this compromise was attempted to be carried out in good faith by the South, in 1821, nearly all the North voted against it, and tried to prevent Missouri from coming into the Union as a slave State. They did the same thing upon the admission of Arkansas, in direct violation of their agreement. And upon the annexation of Texas, they again violated the compromise. We thus see that it won't do to compromise n principle to please Northern fanatios. We are no longer for begging Abolitionists to give us our contitutional rights. Let us demand our rights, and quit compromising principles and rights. The South should ask nothing that is not Ducals, Mourning Goods; in a word, a full replenright, but she should take nothing less. Southerners, whose arms and treasure helped to acquire our Territories, have a right to go into them with their negroes, and to look to the Government for protection, at least, while the Territory is public domain. They demand the same protection for their slaves that is given to other property recognized by the Constitution, but they demand noth.

ing more, and should submit to nothing less. The Louisville Courier, feeling that it is doing what is incompatible with good faith be-tween the Democracy of the North and the South, resorts to the usual trick of persons in his predicament. He got up something to intimidate the seak, and blind the multitude. The Courier makes the declaration that the doctrine of noninterference by Congress with slavery in the Territories is a "Black Republican heresy"—an "Abolition heresy."—Cin. Enquirer.

Well, sir, when we thus added these adjectives to the miserable heresy we may have been using enlarged idens-something akin to the 54° 40 augeness of the editor of the Enquirer. But whether our calling this heresy Black Republican and Abolition was a 54° 40' enlargement or not, we think the adjectives used are the right ones. We think the Douglas heresy of unfriendly legislation to slavery in the Territories, or no legislatiou at all to protect the institution against the aggressions of Northern fanatics, is both a Black Republican and nn Abolition heresy. And the indorsement of this heresy by the Cincinnati Enquirer, instead of making us feel disposed to take off the descriptive adjectives, rather inclines us to add something still stronger and more expressive of our disgust for the doctrine. We have nothing to expect from the avowed Abolitionists and Bluck Republiciaus of the North, for we know where they are, but we are puzzled where Lotteries for sale, or forwarded to any address .to place one of these crastures when cloaked in a Democratic garb.

We must inform the Enquirer, however, that we are for uon-intervention properly understood as much as any true National Democrat can bc. But when there is intervention which excludes PATTEN & DRYDEN, or prevents slave-owners from the enjoyment of tion of the doctrine of non-intervention in the sense used by the Cincinnati platform, to demand protection to the rights of those slave owners thus imposed upon and outraged by fanatical aggressionists. We think that the true doctrines of non-intervention and protection are properly understood by us and the sound Demogracy of Kentucky, and that the best way for the Enquirer to husband, if it won't abandon its Black Republican or Abolition heresy of nou-intervention, is not to interfere with the politics of this Stale, with the view of forcing such an abominable here sy down the throats of this people. Its doctrine may do in Ohio, but it can awaken no sympathy in the sound Democratic heart of Kentucky

The Huge Idea Man of the Enquirer. The editor of the Cincinnati Enquirer is a very queer fellow. In 1846, while he was a member of Congress, he made a terrible speech on the Ore

gon boundary question. He was for 54° 40 straight out. The poor man seems then to have gotten such huge idens of Territorial boundary that he has since been applying these ideas to the names of our statesmen. In his issue of last Sunday-a larger paper than he published during the week-he extended the boundary of the name of the Hon James Guthrie. He called him James B. Guthrie-Now we object to any such doings as this. If the editor of the Enquirer wants 54° 40', and wants to enlarge his paper on Sunday, we shall offer no objections. But we can't permit him to enlarge upon the name of Mr. Guthrie. We know that great man here as plain James Guthrie, and

40' enlargements applied to his name. The Troy (N. Y.) Times, of April 20, gives the following account of a melancholy case of mo-

he is so known all over the land. We want no 54'

nomania : "We learn that a prominent merchant of this city has gone crazy, within a day or two, and his insanity has become such that his most intimate friend's have become very much alarmed lest reason has forsaken its throre never more to return. It is said that among his atrange fancies he indules in the helicit that he owns a large relived. dulges in the belief that he owns a large railroad out West, bought all the principal railroads in this State, and that he owns stock in all the principal banks in the Union. He is a married man, and has an interesting family, but has become impressed with the idea that he must get married again, and has given out that he is to have one of the most magnificent weddings ever recorded, and ordering thousands of dollars' worth of jewelry from New York, and extending invitations to his friends to be present. He has telegraphed to dif-ferent parts of the Statea relating to stocks of companies, and in each wishing to invest from one to five millions of dollars. His innacy is said to be very distressing, and the bullucination has caused great pain to his acquaintances. An unfortunate endorsement to a large amount, prior to the panic of 1857, induced an aberration which has at last culminated in unmistakable insanity. He will be taken to the asylum at Utica to-day."

Territorial bills of 1850—the principle of leaving the people of the Territories, without Congressional restriction, to settle this question for themaelves, and to come into the Union, when admitted as States, either with or without slavery, as they may determine."

That auch is the true position of Mr. Stephens, and that he does not agree with Douglas, Harney & Co. as to the right and power of a Territorial Legislature to exclude alavery by unfriendly legislation, or by no legislation at all, but that he is for the protection of slavery like other property in the Territories, the following extracts from the same speech will show:

I held that Congress had power to govern or to provide governments, and to pass such laws as

## THE VESPER GAS AIR LIGHT.

The Chapest, most Brilliant, and most Convenient Artificial Light in the World.

THE Vesper Gas Light has won for Itself a reputation of relevance, economy, safety and simplicity, far beyond any other artificial light. The Vesper Gas flame and fixtures precisely resemble in form those of coal gas; but in brilliancy and purity of light, it possesses a decided advantage over even Louisville coal gas. It requires no chimney; there is no need of daily trimming of wick; and the construction of the fixtures is so simple that it is not liable to get out of order, and a child oan manage it readily. The gas burnt in the Vesper fixtures is generated from pure coal oil, without any admixture of alcohol or other foreign ingredient. It is entirely free from odor while burning, a, by a simple contrivance, the vapor of the oll is mixed with the atmosphere, producing perfect combustion and a most intense light. eye while reading or sewing, th re being no flickering or unsteadiness in the flame. The Vesper Gas light is port-able, and can be used in town or country—in fact, wher-ever artificial light is required. The fixtures themselver are adapted in styles to sult all lastes, from the plain single light burner to the most costly chandelier. Each are adapted in styles to suit all tastes, from the plain single light burner to the most costly chandelier. Each chandelier is perfect in itself, there is no outlay to be made for service pipes. The \$8\$ is generated in the burner, and all fatures, from the cheap single light burner to the expensive chandelier, are miniature gas works in themselves. They are sold at prices which do not exceed the cost of ordinary gas flatures of similar styles and ornamentation. A price list will be sent to say address on application. MERCHANTS

visiting Louisville should not fail to procure the Vesper visiting Louisville should not fail to procure the Vesper Gas fixtures for their stores.

CHURCHES, HOTELS, PUBLIC HALLS AND PRIVATE RESIDENCES

throughout the State can now be fitted up with those elegant and convenient chandellers, and other beautiful gas fixtures, which add so much to the appearance of such places, and to the comfort of the home circle, and which, heretofore, could be used only in those favored districts embraced within the coal gas limits of large cities.

meerion here of the numerous testimonials of approval we have received from all quarters. Snifice it to say, scientific men and others who have examined and thor-oughly tested the merits of the Vesper Gas light, pro-nounce it the best and cheapest artificial light nox

inown.

The proprieter respectfully requests responsible merchants in every town and county in the State to correspond with him, believing they will find it to their in terest to aid him in introducing this unequated light to this bn·ner, kept constantly on hand, and for sale who sale and retail. STATE OF THE PERSON NAMED IN COLUMN

BY TELEGRAPH.

FURTHER BY THE CITY OF WASHINGTON New York, April 26.—Sardinia has sent the Marquis Dazeglio on a special mission to London. Austria.—Vienna advices had been very warlike, but had slightv moderated at the close Austrian troops in Lombardy continued to advance and threaten the frontiers of Piedmont. GREAT BRITAIN.—The Indian loan of 7,000,000 sterling had been formally introduced into the London market. The loan is for seven years, secured on 4 per cent. debentures. The London News intimates a supplemental loan of £5,000,000. lndia.—The Calcutta mails to March 9th and Hong Kong advices to February 25th have been received in England.

The Indian Government has imposed an in creased duty on imports, the market for which continued depressed.

London, April 12.—A dispatch from Paris says that England will propose the question of a general disarmament to the plenipotentiaries. The Times says the pacific advices from Paris produced very little effect on the English funds on Tuesday. The public do not believe that Napole-Tuesday. The public to not between that Aspoteon intends to promote a pacific adjustment on the
basis that shall clearly recognise the treaty rights
of Austria, and consequently such as can be accepted by that power, while it will utterly disappoint Sardinia if the arrangement were patched
up to-morrow with the existing feelings of France,
Austria Sardinia and Eussian place. Austria, Sardinia, and Russia in play. The prospects of repose in Europe would not be in the slightest degree better than at this moment. There was yesterday a further unfavorable move-

nent in the Austrian rates.

The correspondent of the Herald says that not withstanding the pacific assurances, warlike pre-parations continue in France on a tremendous scale. Troops are pouring into Lyons from all points. The Paris Patrie, the organ of Napo-ieon's private Cabinet, speaks of a last and su-preme effort which England and Prussia are making in behalf of peace, referring to the Ausmaking in behalf of peace, referring to the Austrian proposition for a general disarmament.—
The Patric asserts that France is still on a peace footing. She has collected no army on her frontiers, and has not applied to the Legislature for war credits; while Austria having increased her army in Italy to 100,000 men, might commence a campaign to morrow. The Patric concludes with a threat, saying that if Austira means that a general disarmament is to result in the maintenance of the statu quo in Italy, and not in dissolving the imperious difficulties of the present situation, it must not be expected that France will be duped must not be expected that France will be duped y such a demand.

GERMANY.—A letter from Munich states that

the cavalry and infantry of the Bavarian army are to be placed on a war footing, and before the end of the month all Germany will be in CHINA.—The Hong Kong advices by mail are to the 26th of February. The January English mail had not arrived out. The supplies of tea were failing, all the tea districts having been swept, and the low qualities arriving show that there is very little more to arrive. Considering the qual-ity the prices are extremely high. In the Boyshu districts it is reported that the plants are suffering from drought.

Arrival of the St. Louis-Dreadful Earthquake at Ecuador.

New York, April 26.—The steamship St. Louis, from Aspinwall, with the Calafornia mails of the 5th inst., five hundred and fifty passengers, and \$1,723,000 in treasure, arrived at this port this evening. The t. Louis made the trip in little over twenty days. The United States ships Roanoke and Jamestown and the storeship Relief were at Aspinwall, all well. The principal consignees of the treasure are as follows: Wells, Fargo, & Co., \$300,000; American Exchange Bank \$210,000; William Hıll & Co. \$111,000; W. T. Coleman & Co. \$77,000; Duncan, Sherman & Co. \$118,000; Freeman & Co. \$74,000; William Hodge & Co. \$40,000; R. Patrick \$80,000; F. Kelly & Co. \$41,000; James Patrick \$50,000; The Calafornia news has been anticipated.

The advices frem Nicaragua are to the 18th ult. nd merely confirm the news already received.

A fearful earthquake had destroyed the city of Quioto with over 2,000 lives. The loss of life omputed by some as high as 5,000. The loss of roperty is said to amount to \$3,000,000. A umber of small towns to the northwest were also estroyed, and some damage was occasioned a

THE TRIAL OF HON. DANIEL E. SICKLES Twentieth Day's Proceedings. WASHINGTON, April 26.—There is a general feel-og of relief manifested by the court, jury, coun-el, and spectators and all concerned at the prosprotect of arriving at a termination to-day of this protracted case. It is expected if the rulings of budge Crawford on the constructions prayed for be not very adverse to the prisoner's cause, the case will be submitted to the jury without further summing up, in which event a verdict would probably be returned on this, the 20th day of the crist.

his morning on instructions prayed for. He had been endeavering to show that the rule adopted in the case of Manning was not a tightening of rinciples of the common law, but was rather in the nature of an alleviation than otherwise.—
Prior to that time the doctrine had never gone further than that no act of insult or contunely, and no trespass on property would justify the slayer in taking the life of a trespasser, and would not reduce the crime from murder to manslaughter.

case was in consonance with the principles of common law long established. As adultery was not an assault on the person of the husband, but was only combined of the two provocations of insult and of trespass, then, to regard the construction of the law as understood at that time, would have convicted the party of murder.

The law then, for the first time, declared that

adultery was such a provocation as would reduce the murder to manslaughter. From that time to his the law had never gone further. It would be very unwise for courts of justice to relax that rule. It would overturn the principle of the comnon law in regard to murder, and would establish the principle that a man could kill another from motives of revenge; besides it could not be re stricted to the single crime of adultery, but would also have to extend to other cases. One would necessarily embrace the other. lle referred to Blackstone, where it is

laid down that no insult constitutes justification for homocide; no species of mere trespass, and no combination of the two had been recognized in ither ancient or modern times as an alleviation of the crime of murder to manslaughter.

More of the St. Nicholas Disaster, MENTELS, April 26.—The steamer St. Nicholas was partially insured at St. Louis. She was own ed by Messrs. Reeder and Glime, the latter first clerk. All her boilers exploded. No reason is assigned. They were old, but considered safe.-The engineers were careful men, and were both killed: also 26 cabin passengers, 8 ladies, and 23 deck passengers. Loss estimated at from 45 to The Odd Fellows are celebrating their fortieth anniversary by a procession. There will be appropriate exercises at their festivities to-night.

Affairs in Utah—Gov. Cumming and Gen. Johnston.
St. Louis, April 26.—The Utah correspondent of the Republican, writing about the affairs of the Territory, says that things are in a worse condition than ever hefore. After the advent of the army, the feeling reached the culminating point, and we are on the eve of open hostilities. The writer also says that there is a difference between Gen. Johnston and Gov. Cumming in relation to their respective powers, and an open division and rupture between the executive and judiciary.

THE RIVER was still rising yesterday, and rising rather faster in the evening than in the morning, th 12% feet water on the falls at dusk. During the previous 24 hours the rise was 14 inches, with mild, cloudy weather all day, clear at night, and a heavy shower in the morning.

The river at Pittsburgh, yesterday, was at a stand, with 15 feet water in the channel, and at Cincinnati it had risen 20 inches, with more heavy

By a special dispatch from Evansville, last evening, we learn that the river was rising fast at that point, the Wabash at flood height, and pouring out immense masses of drift and timber, and all the low lands under water, with heavy rains the whole night previous. Caseyvaic, Shawneetown, Raleigh, and other places, were all inundated.

From J. F. Leyden, the courteous clerk of the fast packet E. H. Fairchild, we are indebted for New Orleans papers of last Thursday, forwarded from Cairo; also a manifest and memorandum.—

She has a heavy freight, including a large lot of sugar and coffee, and was due last night.
The officers of the Fairchild report the lower Mississippi swelling slowly from New Orleans to above Vicksburg; on a stand at Laconic; falling at Memphis; at a stand at Osceola, and the Onio

The Southerner arrived from Memphis last evening, and we learn from her officers that a large sale of suburban lots was going on Saturday, with omnibuses, labeled free, to convey per and to the locality of the sale. As the lots were sons to the locality of the sails. As the lots were sold on long time we may expect to hear of their meeting with ready sales at high prices.

The Mississippi was reported slowly falling as fair down as Vicksburg; but it is said by those who know that it will require a fall of at least four

feet during the next two weeks to make it possi ble for planters in the overflowed sections plant and mature their crops this season. On Thursday, the 21st, two coal boats sank in Mathew's Bend, above Vicksburg-loss about \$8,000. The boats belonged to Wymer, of Evans

The buildings which were burned by the late bre in Memphis, and formerly occupied by the Avaianche, Eagle, and Enquirer offices, are being rebuilt. The workmen have commence I clearing awey the rubbish and laying the foundations.

The Obio was rising rapidly for some distance above and below Elizabethtown. The rise at Caseyv.lle was reported to be from 10 to 12 feet since it commenced. The low country pretty generally overflowed between Elizabethtown and Shawneetown. The rise comes principally from

Wabash, which was very high again.
Whils: the Southerner was lying at the wharf boat at Cuiro, a Cairoite attempted to run ashore, just as the boat was starting out, and fell overboard. As the Cairoites are said to be water proof, generally, and web-footed, he, of course, succeeded in getting out, but not until he was pretty well ducked.

Great exc tement prevails in Memphis between the riends of the rivel packets running below. The Boone comes in competition with the Vicksburg line as far down as Napoleon. The Boone is said to have made her first trip to Napoleou in band ome style, distancing all competitors. The Victoria has ob ained the services of a brass band, which from the hurricane roof discourses weet music to the eager and delighted multitude which assembles upon the wharf, and like Danie in the lion's den, "sees the show without paying a red." There is some talk of two other boats running in connection with the Boone as regular packets, in opposition to the mail line of Shirly. If this new arrangement goes into effect the trav-ering public will have no trouble, and but little expense along that route.

BODT FOUND .- We learn from the Cincinnat Commercial that 'Squire Jack, of Switzerland county, Ind., held an inquest on the body of a man caught near the mouth of Grant's Creek, Sunday, supposed to have been one of the victims by the Nat. Holmes disaster. In his vest pocket was \$199 60, and a watch to which was attached a seal laving on "S. L." He had on no coat. The Antelope, Capt. Brown, having been

The A gonauth has on board 100,000 lash, 40,000 f e flooring, 400 bdfs. shingles, and 100 tons dry goods, nail., &c.

The Memphis Appeal, of Friday, has the following items, and from that paper we learn that a prior of the name of J.W.Gill, who came up passenger on the Dan'l Boone, was the author of the report that Reeder's boats and crew were lost Cammack's Crevasse.

Fr m our attentive friend, Alex. Waddell, of the Vic oria, we learn that a large crevasse had occurred in the levee at Duckpor, sixteen miles above Vicksourg. The break is about a hundred yards wide, and the water is overfl. wing the back country.

GREEN RIVER PACKET HARRISON BRIDGES SOLD.— We learn that Capt. C. A. Everhart has sold the favorite, fast packet Harrison Bridges, for \$10,-000, to Messrs. Williams & Barrett, of Calhom, Ky., on Green river. They are clever men, who we are glad to state, will continue her in the

trade as heretofore.

The Harrison Bridges has proved to be one of the best business and passenger boats ever in the Green river trade, for which she is most admirably adapted. She is staunch and fast, and for some time has been making regular weekly trips, doing a heavy business and making money. This must in a measure be attributable to the energet ic management of Capt. C. A. Everhart, ably assisted in the clerk's office by E. B. Seeley, who is both prompt and popular. She returns to all noints along Green river this evening in charge trade as heretofore. both prompt and popular. She returns to all points along Green river this evening in charge of Capt. |DISPATCHES TO THE [ASSOCIATED PRESS.] From Utah.

ST. Louis, April 26.—A series of letters published in the Salt Lake Valley Tan, giving the proceedings of Judge Cradelbaugh's Court at Provo, explains, to some extent, the difficulties and disturbances in Utah. The misunderstanding be-tween Governor Cumming and General Johnston seems to have grown out of the refusal of the latter to withdraw the troops from Provo, sent there under a requisition of the Court to protect witnesses. Judge Cradelbaugh passed severe strictures on Governor Comming's proclamation, which has not been received here, characterizing it as informal, and evidently designed to axasperate the people against the troops, obstruct the course of justice, and excite insubordination in the army. He also says that instead of the presence of the troops tending to terrify and intimidate the inhabitants, witnesses, jurors and parties in belief of the prosecution, have been compelled to seek protection of the troops against the threats seek protection of the troops against the threats and intimidations of the inhabitants, said to be so terrified. Judge Cradelbaugh was sitting mcrely as a committing magistrate, and would go to Camp Floyd the following week to continue investigations. Testimony has been elicited implicating several Bishops and the civil authorities of the Territory in marders at various times, all of whom fled to escape agreet. The four all of whom fled to escape arrest. The four Grand Jurors discharged by Cradelbaugh also fled. NEW ORLEANS, April 26.—The steamer Tennessee has arrived from Vera Cruz with dates of the 22d, and with City of Mexico dates to the 19th. Miramon forced the lines of Ampudia and Davo at Orazaba, and reached the capital on the 11th with a diminished army. The Liberals were de-feated and driven from Tacubaya and Chepulle pec, losing 200 men. Miramon was murdering peaceable foreigners indiscriminately. A formal protest was issued against the recognition of Juarez's government. Consul Black's exequater was withdrawn, and he was banished from the
